The Rabbit Hole is coming to our online store this month. Bring one to a friend of your own—maybe even the one who lives in a very, very small house. Bring one to a family member, a teacher, or a neighbor. Share it with the world. And, of course, keep one for yourself.

The vibrant colors in The Giving Tree have inspired the Rabbit Hole. May I bring a friend a shirt? Curiosities can be seen in the children's story, just as the apples, shade, and wood given by The Giving Tree.

The Giving Tree, by Shel Silverstein, is a beloved story that has captured the hearts of generations. The story follows a boy who grows a tree and loses it to others. The boy then returns to the tree and finds it has become a place for others to enjoy. The Giving Tree is a reminder to always give back and to be grateful for what we have.

The Giving Tree is a story that teaches us about the value of sharing and the importance of giving. It is a tale of love and sacrifice, of the joy of giving and the pride of receiving. Through the boy's journey, we see the power of generosity and the beauty of sharing.

The Giving Tree is a story that has stood the test of time. It is a story that has been enjoyed by children and adults alike for generations. And it is a story that has inspired countless others to give back and to be grateful for what they have.

Fall is the time to harvest, and Kansas City has a bounty of local orchards and farms that offer You-Pick apple picking. There are few gravel roads to get there. Fujis, Jonathans, and Granny Smiths not your thing? Don't worry—these farms have a variety of apples to choose from. Some farms even offer cider or donuts to enjoy while you pick.

Apple picking is a revitalizing outdoor activity for all ages and is often just a short drive down a gravel road. In fact, some of the best apple picking can be found in the countryside around Kansas City. These farms are often located in scenic areas with beautiful views and a peaceful atmosphere.

The Rabbit Hole is creating a three-dimensional diorama of the story of The Giving Tree. Each page of the book will be transformed into a diorama, with the layers betwixt each other, allowing the reader to feel as though they are dancing through this whimsical story, discovering a surprise around every turn. Schenk de Regniers and illustrated by Beni Montresor, is a perennial favorite. To celebrate the work's publication, the book has been reimagined as a diorama, creating a three-dimensional narrative that will engage readers of all ages.

Joey, written by Beatrice Schenk de Regniers and illustrated by Beni Montresor, is a beautiful and lyrical story that is full of color and movement. The story follows a boy named Joey who is different from the other animals at his school. He is a bit of a misfit, but he is also very special. The book is told in vibrant jewel tones, and the story is filled with color and movement, making the reader feel as though they are dancing through the story.

The Rabbit Hole is working on the diorama of Joey, and we are excited to share it with you. We are currently assembling each layer and working on the mechanics that will move each animal across the theater set. We are using paper, cardboard, and paint to create the layers, and we are working on the mechanics that will make each animal move as if they are dancing through the story.

We are ever thankful to North Kansas City for their tremendous generosity and ongoing support! Many thanks to these fine folks for their partnership and support of our project. Check out a video of the video of the creation of the diorama, and see more exhibits in progress!
